*Take your business to the next level!*

FastTrac® GrowthVenture™ is targeted to existing businesses who want to develop a plan for growing their companies. Hindsight is 20/20, so use that to create a framework and a plan to improve your business performance. In this course, you are an active participant working on your own business strategy. Facilitators are knowledgeable entrepreneur practitioners who are attuned to the issues that influence the decisions you make about your company, making the program meaningful by applying this

knowledge to your business. On-going coaching enables you to access one-on-one input to continue to move your business forward even after the program has ended.

### Learn How To:

- Review your past performance and determine lessons learned
- Plan your financial needs to avoid cash flow problems
- Make critical decisions about your business vision and strategy
- Investigate next-stage growth and opportunities
- Improve operational efficiency
- Determine if you have the right people in place
- Develop an overall business
- Achieve a strong, competitive market position
- Lead with clarity
